

MATH

- » Reads numbers 0-100
- » Represents numbers 0-31
- » Counts forward to 100
- » Counts backward from 20-0
- » Counts to identify sets of numbers to 20
- » Names numbers one more and one less than (0-20)
- » Names numbers greater than and less than 20
- » Compares and orders whole numbers from 0-20
- » Finds sums and differences between numbers 0-10
- » Composes and decomposes numbers up to 10
- » Recognizes and continues patterns abab abbabb abcabc **growing patterns**
- » Recognizes two and three dimensional shapes: circle, square, triangle, rectangle, diamond/rhombus, oval, sphere, cube, cone, cylinder
- » Sorts objects by attributes
- » Demonstrates concepts of measurement

READING

- » Understands concepts of print
- » Demonstrates understanding of spoken words, syllables and sounds
- » Knows and applies decoding skills
- » Reads sight words
- » Reads grade level text fluently and accurately
- » Understands grade level text
- » Determines the meaning of words and phrases

WRITING

- » Communicates idea through drawing, dictating and writing
- » Spells simple words phonetically
- » Prints legibly
- » Applies capitalization, punctuation and spacing

SCIENCE

In our study of Life Science, students will participate in outdoor classroom observations and learn about their 5 senses, plants, animals, weather, and what is living/ non-living. In addition to classroom engineering projects students will discuss and complete challenges around a Gingerbread Man theme. For Physical Science, students will use the Foss curriculum to explore paper, wood, fabric and discuss what is man-made vs. nature made.

- » Sorts objects into two groups, those found in nature and human made
- » Describes changes in seasons and weather.
- » Differentiates between living and non-living
- » Makes accurate observations and comparisons of plants and animals
- » Sorts objects by color, size, shape and texture
- » Identifies the sun as a source of heat and light
- » Identifies the external parts of a variety of plants and animals

SOCIAL STUDIES

- » Names and understands school rules
- » Distinguishes between needs and wants, goods and services
- » Recognizes a map and a globe and identifies basic land forms
- » Compares and contrasts the past and the present

PERSONAL GROWTH

- » Demonstrates effective organizational skills
- » Follows directions
- » Uses time wisely
- » Sustains attention throughout tasks
- » Listens attentively
- » Respects others and property
- » Follows school rules
- » Contributes positively to the group
